Program Objectives:

Have you always wanted to learn how to play ice hockey? The goal of the Learn to Play Hockey Classes is to ensure each student receives personalized hands-on professional instruction. Our instructor's will work individually with each student ensuring a positive, fun and safe learning experience. Our focus is on teaching each student skating mechanics, puck-handling fundamentals and a basic understanding of the game of hockey. Upon completion of this course we guarantee you will have more fun, score more goals and have a better understanding of hockey, the greatest game on Earth.
The classes are designed to develop the skill progression of each player. Many of our students choose to repeat the classes in order to develop their skill sets. Each player will receive a report of his/her progress and what areas they need to focus on in order to improve their game and to move onto the next level.
We hope to instill in each child sportsmanship, teamwork and motivation to succeed at new challenges.
